Two Mystery Tracks

Two Mystery Tracks

ATARI™
Innovative
Software

The green flag is up. Again!

New Le Mans™ continues the winning racing and profit tradition of Team Atari. Like its famous forerunners, *Gran Trak™*, *Indy 500™*, and *Indy 400™* (the most profitable video games in the industry), Le Mans offers an all-new racing experience.

Ten tracks instead of one!

Le Mans challenges player speed and skill with 10 different tracks. Players race against the clock on each track as it appears in sequence. After the car passes the finish line of one track, a new one appears automatically, more difficult than the one before. The first track is a snap. The second, a little more difficult. The third...

The more defied the driver, the more tracks will be completed within the game's time limit. And all slots don't make it any easier. 50 points are scored for each completed track.

Four mystery tracks

If a player finishes the first 6 tracks (shown graphically on the attraction panel), two of four possible mystery courses will appear randomly to add further excitement and challenge. (We may give away the world if a player can drive all 8 within the time limit.)

Extended Play—special profit bonus.

Extended play can be awarded after scores of 40, 50, 55, 60, 65, 70, and 75, which are pre-selectable by the operator.

An "Extended Play" sign lights up on the attraction panel when operator-selected score is achieved. Start button flashes and video playfield inverts—figures change from white on black to black on white.

Extended play begins with track 5—makes the extra chance more challenging, more of an incentive for repeat play.

High performance goodies.

A 10" steering wheel, smooth-as-silk, 4 speed H-shaft, durable all-metal brake and gas pedals add to the sensational realism.

Low pin stops make you a bigger winner.

Exclusive Atari features include easy access slide-in monitor, *Dumarest™* tested solid state reliability for long play earnings, locking coinbox, and hinged coin door. And *Intestart™* 24-hour parts turnaround is available anywhere.

Dimensions.

Height: 68", 16764 cm, Width: 25.25", 64135 cm, Depth: 33", 8382 cm

Take the checkered flag!
